

SPATULA STERILIZER

Sterilization by
water spray
with water
> 65°C

Optimized air
and energy
consumption

Optimized
interface to
insert the
spatula

Automatic start
with inductive
sensor

Main characteristics

Cleaned product	Spatula
Height	308 mm
Width	232 mm
Depth	267 mm
Watertightness	IP66
Cycle duration	10s to 60s
Raw material	Stainless steel
Additional products	Spatula, sterilizer without control panel (1296)
TERMET part number	695
