

## LONG CARCASS SPREADER STERILIZER

Sterilization by water spray with water > 65°C  
Optimized air and energy consumption

Clean the base of the carcass spreader  
Removable cap

Optimized interface to insert the carcass spreader

Automatic start with inductive sensor

### Main characteristics

Cleaned product	Carcass spreader
Height	344 mm
Width	597 mm
Depth	327 mm
Watertightness	IP66
Cycle duration	10s to 60s
Raw material	Stainless steel
Additional products	Carcass spreader, sterilizer without control panel(5776)
TERMET part number	1295
