

SPLITTING SAW STERILIZER

Sterilization by
water spray
with water
> 65°C

Optimized air
and energy
consumption

Optimized
interface to
insert a splitting
saw

Automatic start
with inductive
sensor

Main characteristics

Cleaned product	Splitting saw
Height	700 mm
Width	378 mm
Depth	1377 mm
Watertightness	IP66
Cycle duration	10s to 60s
Raw material	Stainless steel
Additional products	Splitting saw, possibility to be controlled by a PLC
TERMET part number	1148
